

# **Appendix: Prompt Examples to Use Perplexity + Gemini + ChatGPT**

(For AI Synergy Workflows)

---

## **Task Example: Write a Blog Post on “AI in Education”**

### **Step 1: Perplexity AI Prompt**

#### **Prompt:**

“Give me the latest 2024 statistics and trends on how artificial intelligence is being used in schools and colleges, with sources. Also include 3 use cases from different countries.”

---

### **Step 2: Gemini Prompt**

#### **Prompt:**

“Analyze this PDF report from UNESCO on digital education. Summarize key points, barriers to adoption, and opportunities. Generate insights in bullet form.”

---

### **Step 3: ChatGPT Prompt**

#### **Prompt:**

“Using the Perplexity stats and Gemini analysis, write a 900-word blog titled ‘How AI is Reshaping Education in 2025’. Use a storytelling intro, data-backed arguments, and include 3 global case studies. Add subheadings and end with a call-to-action.”

---

## **Reusable Prompt Template for Any Task**

### **Perplexity AI**

“Research and list 5 current trends/statistics in [topic] with citations.”

### ✓ Gemini

“Upload and analyze this [file type]. Summarize key insights and extract useful visuals.”

### ✓ ChatGPT

“Write a [blog/report/script] based on insights from the above tools. Format with structure, CTA, and tone suitable for [audience type].”

---

## Privacy & Accuracy Tips

- Do not enter personal/sensitive info into any AI platform.
- Always verify Perplexity’s citations for freshness and source reliability.
- Use Gemini to analyze files—PDFs, spreadsheets, screenshots, etc.

---

## Bonus: Automate Your Workflow

Combine these tools with automation platforms like **Make.com** or **Zapier**:

→ Prompt in Perplexity → Feed into Gemini → Finalize in ChatGPT → Send to Notion, Docs, or Email
